## Languages

Spanish Native

Hi, I'm a Frontend Engineer,

Love software development and enjoy the challenges it brings every day and the excitement of learning something new.

Experience working with VueJs, ReactJs, Nodejs and agile methodologies, developing solutions from scratch.

## Work History

2019 - Current

### Front End Developer

*Decathlon Spain*

Collaborated with small/high-performance group during research and development processes of new business models. The project consists of creating a sports ecosystem, made up of a product marketplace, a service marketplace, an affiliate system and a recommendation system.

I have worked directly on the implementation and development of the service/product marketplace. Integration the Mirakl marketplace engine at the backend with nodeJs and developing the Frontend with NuxtJs, vuex.

### Achievements

- Build and integrate Products Marketplace [www.d-padel.com](http://www.d-padel.com)
- Build and integrate Services Marketplace inside of D-padel
- Integration of the Marketplace Service - Mirakl

2018 - 2019

### Information Technology Specialist

*Decathlon Spain*

- Development and maintenance in [www.Decathlon.es](http://www.Decathlon.es) related to improvements and commercial actions.

- Development support to Decathlon internal solutions.

- Provide support and technical training for application's users.

2017 - 2018

### Sport Specialist Seller

*Decathlon Spain*

- Technical Seller and responsible of Kayak / SUP section.

- Build an annual offer, plan and lead the sport sales

2007 - 2017

### Information Technology Specialist

*La Gloria Medical Center - Venezuela*
